**SA International Announces Successful Completion
of the HP Designjet L25500 RIP Certification Program**

Salt Lake City, UT – January 25, 2010 – SA International (SAi), the leading provider of Solutions for the Professional Sign Making, Large Format Digital Printing and CAD/CAM for CNC Machining Industries, today announced that Flexi 8.6v2 and PhotoPRINT 6.1v2 have achieved RIP (raster image processor) Certification for the HP Designjet L25500 Printer series.

Flexi and PhotoPRINT received the highest rating possible in all applicable categories of the HP Designjet RIP Certification, including Printing Performance, Calibration, HP Media Support, Media Flexibility, Printer Reporting, and Job Management.

HP's RIP certification tests are designed to ensure smooth integration with the unique features of HP's printers. Only RIPs that meet the criteria for certification are allowed to use the "Certified for HP Designjet L25500" designation. To see how Flexi and PhotoPRINT fared in the test, visit http://h10088.www1.hp.com/cda/gap/display/main/index.jsp?zn=gap&cp=20000-13698-15259-15362^262807_4041_100

"Flexi and PhotoPRINT met HP's rigorous certification challenge head-on and achieved recognition for the most complete functionality with the HP Designjet L25500 Printer series," states Gudrun Bonte, Product Manager for Flexi and PhotoPRINT.

The HP Designjet L25500 produces a range of indoor and outdoor applications, ranging from POP displays to vehicle wraps. Water-based HP Latex Inks do not require special ventilation and are comparable to eco-solvent inks in terms of durability. Other highlights of HP's latest addition to the Latex Printing Technologies portfolio are user-replaceable printheads, a built-in take-up reel, and instantly dry prints. For a more complete list of highlights, visit www.hp.com/go/graphicarts.

About SA International

SAi is recognized as a global leader in providing complete, professional solutions for the sign making, digital printing and CNC machining industries. The Company's solutions help turn creative ideas into reality by providing world-class design and editing tools geared for production. Headquartered in Salt Lake City, Utah, SAi has additional offices in Belgium, Brazil, and Japan.
