**SA International Announces Successful Completion
of the HP Designjet Z6200 Photo Printer RIP Certification Program**

Salt Lake City, UT – November 12, 2010 – SA International (SAi), the leading provider of Solutions for the Professional Sign Making, Large Format Digital Printing and CAD/CAM for CNC Machining Industries, today announced that Flexi and PhotoPRINT 10 have achieved a full star RIP (raster image processor) Certification rating for the HP Designjet Z6200 Photo Printer.

Flexi and PhotoPRINT received the highest rating possible in all applicable categories of the HP Designjet RIP Certification program, including Printing Performance, Use of an Embedded Spectrophotometer, HP Media Support, Printer Reporting, and Job Management.

HP's RIP certification tests are designed to ensure smooth integration with the unique features of HP's printers. Only RIPs that meet the criteria for certification are allowed to use the "Certified for HP Designjet Z6200 Photo Printer" designation. To see how Flexi and PhotoPRINT fared in the test, visit www.hp.com/go/Z6200/solutions.

"The newest versions of Flexi and PhotoPRINT not only passed the RIP Certification, but achieved the highest possible ratings in all categories," says Gudrun Bonte, Product Manager for Flexi and PhotoPRINT. "When considering a RIP for your new HP Designjet Z6200 Photo Printer, you can be sure that Flexi 10 and PhotoPRINT 10 are a perfect match."

The HP Designjet Z6200 Photo Printer produces gallery-quality prints with the highest speeds of large-format printers in its price class ⁽¹⁾. New HP Vivid Photo Inks included with the device offer improved scratch resistance, gloss levels and gloss uniformity and a wider color gamut with deeper blacks than previous HP inks. For a more complete list of highlights, visit www.hp.com/go/designjetz6200.

About SA International

SAi is recognized as a global leader in providing complete, professional solutions for the sign making, digital printing and CNC machining industries. The Company's solutions help turn creative ideas into reality by providing world-class design and editing tools geared for production. Headquartered in Salt Lake City, Utah, SAi has additional offices in Belgium, Brazil, and Japan.
